

ChemGes – Version 61.0

Update 01/2025

You can find information on the installation and a short summary of the changes in ChemGes, on the following pages.

Creation of documents in Word (.docx)- and HTML format

With this update, we have implemented another online service that will make your work much easier:

It is now also possible to optionally select the output of the respective document (Safety Data Sheet, Label or Internal Plant Instruction) in Word (.docx) - or HTML format directly in the editing screen of documents (access via **[F8] SDS**, **[F6] Label** or **[F5] Internal Plant Instruction** in *Maintenance of raw materials/preparations*).

CLP – 22. ATP

The amendments according to the 22. ATP (2024/2564/EU) have been implemented in ChemGes.

Find further information in the update description to Version 61.0.

Installation:

Please note that this Update contains extensive changes to the Database. For this reason, the Update may take a long time.

Please, backup your program and data as usual before an Update.

Let the Update run completely and do not turn off your computer while the Update is running, as this can lead to massive data loss.

You can download the update either directly in ChemGes via the update symbol in the right upper corner of the basic screen, or via the following link:

<http://dr-software.com>

Please note, that your program must be at least Version 58.0 in order for your Update to be performed. Please contact our hotline if that is not the case.

To download the update, please either go to www.dr-software.com – *Downloads* – **“Update from version 58.0 or higher to version 61.0”** or click directly on the above stated link.

Save the file “32.zip” in your program directory for ChemGes (usually \chem) and unzip the file. Please make sure that the program is not in access. Afterwards you can start the update by double-clicking **chemges.exe**.

Should you need the update on USB stick, as a download is not possible for you, please also inform us by email (info@dr-software.com). We will be happy to arrange a shipment as soon as possible.

Overview of changes:

- New online service for creation of documents in Word- and HTML format
- Update and new adoption of occupational exposure limits, update and new adoption of substance listings and national chemical inventories, update of transport names

You can find the **update description to Version 61.0** on our website at:

www.dr-software.com or www.dr-software.at
